Technology and TA Providers

New Resource for TA Providers!

Technology Comparison Guide

The format in which training and technical assistance is being offered has pivoted for this moment in time to the use of various technologies. A new resource is available to assist you with information on some of the commonly used technology platforms used by TA providers as shared in TA2TA connect calls. The Technology Comparison Guide has three sections: Webinar and Conferencing Platforms, Learning Management Systems and Content Development Platforms, and Podcast Platforms that include information about the platform including features and costs. Additionally, there are links to technology documents created by TA providers. This guide is not exhaustive, nor meant as an endorsement by the National Council of Juvenile and Family Court Judges (NCJFCJ). If you are using a platform you would like added to the list or have your own technology-focused document to share with other TA providers, please email info@ta2ta.org.

Coming Soon: Scholarships for Virtual Platforms

In this time, as TA providers pivot their work, there are many online programs available that may enhance your training and TA. TA2TA is working to provide financial assistance to support the purchase of virtual platforms such as mapping programs, video editing programs, etc. for those OVW TA providers who may not have the budget to purchase virtual programs and subscriptions. TA2TA looks forward to announcing the details of this service towards the end of this year.

TA2TA Can Host Your Zoom Meetings!

TA2TA now offers Zoom Meetings (Zoom) as an alternative platform for training and technical assistance. This platform is excellent for conversation-type meetings and presentations. In Zoom, all attendees have the options to use a web camera, computer microphone, and/or call-in using their phones making engagement and participation easy. For presenting materials, you are able to share your screen and choose the application you would like to share (PowerPoint, Microsoft Word, Excel, Web Browser). Additionally, you can share your presentation materials as downloadable files for the meeting attendees in the chat box. Polling is also available as single answer or multiple choice questions to increase engagement of your attendees. To learn more about how TA2TA can support your meetings and presentations in the Zoom platform, please email info@ta2ta.org.

Need a TA Provider Account for TA2TA.org?

If you do not have an account with TA2TA, please create one! Accounts are encouraged for individuals rather than organization accounts. Each individual associated with your organization will have the ability to update any of your organization's information. With a TA2TA account, you can upload calendar events, add OVW-approved resources to the library, update project information including contact information, participate in conversations with your fellow TA providers through the TA2TA Engagement Forum, and have access to TA provider-specific webinars.
